Folks,

As the holder of a district team appointment in one of the four Districts due to form the new Bromley District on 1<sup>st</sup> October I wanted to assure you that there is every likelihood that, should you wish to there will be a role in the new District organisation for you.

Over the summer and early autumn the Deputy DCs and I will be meeting up with (hopefully) all of you to discuss opportunities within the new District organisation.

We are in the process of putting together an organisation which we believe will be forward looking and will help develop Scouting across the borough of Bromley to deliver more opportunities for more young people. To date the DDCs and I have not been able to meet together to put the structure together – this starts on Monday, so after that we will want to make progress quite quickly.

We are aiming at a date of 1<sup>st</sup> October for the merger of the Districts but I suspect that it is highly likely that we won't have completed the task of building the new team and making it effective by then. So – whilst we do this, please continue to support Scouting as you do so well today: continue to visit section meetings, run events and sort out any problems to ensure that the young people do not suffer any adverse effects from the changes that are in train.

It will take us all quite a while to develop and then bed down the new District, so please be patient and work with us.

If any of you wish to talk about roles that you'd like to be considered for in advance of our planned sessions in the early autumn please feel free to e-mail or phone me – details below (those of you who have already made contact do not need to do so again unless you think I've forgotten you (which I hope that I haven't!))

If anybody has questions, concerns or queries, please call or mail me.

Best regards and have a great summer

Giles
